城市概况

About Meishan

眉山，是大文豪苏东坡的故乡，位于成都之南、岷江之滨，山川秀美、生态宜居，是距离成都最近、往来交通最便捷的地级市，与成都共建国家级天府新区，获评四川省开放发展示范市。正积极抢抓成渝地区双城经济圈建设、成德眉资同城化发展等重大机遇，瞄准“制造强市、开放兴市、品质立市”主攻方向，着力形成“两区带两廊”发展格局，奋力建设现代化都市圈高质量发展新兴城市。

作为四川省委确定的“开放发展示范市”，大力实施全球招商，落户世界 500 强企业数量仅次于成都，居全省第二，招商引资国内省外到位资金连续 15 年居全省前列。2024 年，全市规上工业增加值居全省第 2，GDP 增速全省第 3；新签约项目 187 个，合同金额 827.6 亿元，其中“三强”企业投资或投资额 20 亿元及以上重大项目 24 个；外商直接投资（FDI）到资超 1.9 亿美元，总量位居全省第二，且连续 5 年保持全省前 3。招商引资各项指标名列全省前茅，招商态势持续向好。

孕奇蓄秀当此地，郁然千载诗书城

A place filled with beauty and wonders A city of poetry and literature with millennia of history

Meishan, the hometown of the literary icon Su Dongpo, is located south of Chengdu, along the Minjiang River. Renowned for its stunning mountains, rivers, and vibrant environment, it is the nearest prefecture-level city to Chengdu, providing easy access and convenient transportation. In partnership with Chengdu, Meishan has developed the national-level Tianfu New Area and earned recognition as a model city for open development in Sichuan Province. The city is seizing key opportunities, such as the development of the Chengdu-Chongqing Twin-City Economic Circle and the synergistic development of Chengdu, Deyang, Meishan, and Ziyang. To become a city known for its a manufacturing-driven city, an openness-fueled city, and a quality-rooted city, Meishan is establishing a development framework of "two parks leading two corridors." It is an emerging star of high-quality development in the Chengdu Metropolitan Area.

As a "model city for open development" designated by the CPC Sichuan Provincial Committee, Meishan actively promotes investment from global businesses. The number of Fortune 500 companies established in the city ranks second in Sichuan Province, second only to Chengdu. For 15 consecutive years, the city has consistently ranked among the top in the province in the attracted funds from both domestic and international investors. In 2024, Meishan's industrial added value above designated scale ranked second in Sichuan, while its GDP growth rate placed third. The city signed 187 new projects with a total contract value of 82.76 billion yuan, including 24 major projects, each with investments exceeding 2 billion yuan from leading enterprises. Foreign direct investment (FDI) surpassed 190 million USD, ranking second in the province and maintaining a Top Three position for five consecutive years. All of its investment promotion indicators are among the best in the province, with a strong and improving trend.

文化眉山 Culture in Meishan

千载诗书城，人文第一州

A city of poetry and books for thousands of years
A leading hub of culture and legacy

2022年6月8日，习近平总书记来川视察，亲临眉山三苏祠调研，对东坡文化给予高度评价。总书记指出：“一滴水可以见太阳，一个三苏祠可以看出我们中华文化的博大精深。我们说要坚定文化自信，中国有‘三苏’，这就是一个重要例证”。

眉山不仅是“唐宋八大家”苏洵、苏轼、苏辙的故乡，东坡文化发源地，也是中国历史上著名的“进士之乡”，素有“千载诗书城”“人文第一州”美誉。孕奇蓄秀，名人辈出：商代长寿传奇彭祖，西晋孝道典范李密，两宋名臣虞允文，清代才子彭端淑等。

眉山是古代中国三大雕版印刷中心之一，也是明末江口沉银遗址所在地。全市有全国重点文物保护单位13处，省级文物保护单位44处，市县级文物保护单位419处。正积极申报国家历史文化名城，建设时尚体育运动名城、国际生态康养旅游目的地、都市圈近郊休闲度假基地。

On June 8, 2022, President Xi Jinping came to Sichuan for inspection, and gave high praise to Dongpo culture during his visit to the Sansu Temple in Meishan. President Xi said: "The sun can be seen through a drop of water. The Sansu Temple is a vivid embodiment of the profound Chinese culture and an excellent example of cultural confidence."

Meishan is not only the hometown of Su Xun (Father), Su Shi (Older Son), and Su Zhe (Younger Son)—three of the "Eight Literary Icons of the Tang and Song Dynasties"—but also the birthplace of Dongpo culture. Known as a renowned hometown of Jinshi (a title awarded to scholars who passed the highest imperial examinations in ancient China), it has earned the titles of "the city of poetry and books for thousands of years" and "the leading hub of culture and legacy." The luminaries here include Peng Zu, the legendary figure of longevity from the Shang Dynasty; Li Mi, a model of filial piety from the Western Jin Dynasty; Yu Yunwen, a distinguished minister from the Song Dynasty; and Peng Duanshu, a talented scholar from the Qing Dynasty.

Meishan is one of the three major woodblock printing centers in ancient China and the location of the Jiangkou Silver Wreck from the late Ming Dynasty. The city is home to 13 national key cultural relics protection sites, 44 provincial cultural relics protection sites, and 419 municipal and county-level cultural relics protection sites. It is actively pursuing the designation of a national historical and cultural city while simultaneously working to establish itself as a fashionable sports city, an international ecological and health tourism destination, and a premier leisure and vacation spot in the suburbs of the Chengdu metropolitan area.

生态眉山 Ecology and Environment in Meishan

眉山，介岷峨之间，为江山秀气所聚，山川秀美、生态宜居，是国家卫生城市、国家园林城市、国家森林城市，正在创建国家生态文明建设示范区。

全市森林覆盖率 50.25%，城乡绿化覆盖率 60.59%，水域占国土面积比重 9.6%，拥有各类自然保护地 14 个，国家 I 级 II 级重点保护野生动物 89 种、国家 I 级 II 级保护植物 77 种，16 个国家、省考核断面水质优良率达 100%。成立了全省第一个、全国第二个森林碳汇管理局。

Meishan is located between Mount Min and Mount Emei. It is renowned for its stunning landscapes, beautiful mountains, crystal-clear rivers, and a highly livable environment. It has earned recognition as a national health city, a national garden city, and a national forest city. The city is actively working towards becoming a national demonstration zone for ecological civilization.

The city's forest coverage rate stands at 50.25%, with the urban and rural greening rate reaching 60.59%. Water areas account for 9.6% of the total land area. Meishan is home to 14 nature reserves of various types, 89 nationally protected wild animal species at Levels I and II, and 77 nationally protected plant species at Levels I and II. Additionally, 16 national and provincial water quality assessment sections maintain a 100% excellent quality rate. The city also established the province's first and the country's second Forest Carbon Sink Management Bureau.

作为养眼、养身、养心的“成都后花园”，眉山拥有国家一级博物馆三苏祠、“世界最美桌山”瓦屋山、“川西第一海”黑龙滩、“长寿福地”彭祖山、“佛教入蜀第一山”老峨山等风景名胜 120 余处，水系发达，古树参天，动植物资源丰富，高山草甸和云海景观令人流连忘返，是体验川西传统生活的理想场所。成功入选“中国最美生态文化旅游城市”。

As the "backyard and garden of Chengdu," Meishan is a destination that delights the eye and nourishes both the body and the soul. The city boasts over 120 scenic spots, including the National First-Class Museum at San Su Shrine, Mount Wawu —referred to as "the most beautiful table mountain in the world," Heilongtan, known as "the first sea in western Sichuan," Mount Pengzu, the "land of longevity," and Mount Lao'e, considered "the first mountain where Buddhism entered Sichuan." With its well-developed water system, towering ancient trees, diverse animal and plant life, and breathtaking alpine meadows and seas of clouds, Meishan offers an unforgettable experience. It is the perfect place to immerse oneself in the traditional lifestyle of western Sichuan. The city has also been honored as "China's Most Beautiful City for Ecological and Cultural Tourism."

成渝地区双城经济圈

Chengdu-Chongqing Economic Circle

2021年10月20日，中共中央、国务院印发《成渝地区双城经济圈建设规划纲要》，提出：

“充分发挥成都带动作用 and 德阳、眉山、资阳比较优势，加快生产力一体化布局，促进基础设施同网、公共服务资源共享、政务事项通办、开放门户共建，创建成德眉资同城化综合试验区，建设经济发达、生态优良、生活幸福的现代化都市圈。”

“加快天府新区成都片区和眉山片区融合发展，打造成眉高新技术产业带”。

On October 20, 2021, the CPC Central Committee and the State Council issued the "Outline of the Construction Plan for the Chengdu-Chongqing Twin-City Economic Circle," which outlined the following key proposals:

"Fully leverage the pivotal role of Chengdu and the comparative advantages of Deyang, Meishan, and Ziyang. Accelerate the conglomeration of productivity, promoting unified infrastructure networks, shared public services, coordinated government affairs, and joint development of open portals. Create a comprehensive experimental zone for a metropolis comprising Chengdu, Deyang, Meishan, and Ziyang, building a modern metropolitan area with a thriving economy, excellent ecosystems, and a high quality of life."

"Accelerate the integrated development of the Chengdu and Meishan regions within the Tianfu New Area, and establish a high-tech industrial belt spanning both cities."

成都都市圈

Chengdu Metropolitan Area

成都都市圈是继南京都市圈、福州都市圈之后，国家层面批复的第三个都市圈。

2021年11月29日，四川省人民政府印发《成都都市圈发展规划》，提出：

“充分发挥成都辐射带动作用 and 德阳、眉山、资阳区位优势，推动一体化、同城化发展，全面推进基础设施互联互通、现代产业协作共兴、对外开放协同共进、公共服务便利共享、生态环境共保共治，打造有机融合的经济共同体，加快建设具有全国影响力的现代化都市圈”。

The Chengdu Metropolitan Area is the third national-level metropolitan area approved by the Chinese government, following the Nanjing and Fuzhou Metropolitan Areas.

On November 29, 2021, the People's Government of Sichuan Province issued the "Chengdu Metropolitan Area Development Plan," which outlined the following objectives: "Fully leverage the pivotal role of Chengdu, along with the location advantages of Deyang, Meishan, and Ziyang. Promote integrated and synergistic development, advance infrastructure connectivity, strengthen industrial cooperation, and joint development, encourage open collaboration and common prosperity, facilitate shared public services, and ensure coordinated ecological protection and governance. The aim is to create an economically integrated community and establish a modern metropolitan area with national influence."

成眉同城化发展

Chengdu-Meishan Synergized Development

眉山是距离成都最近的地级市，成眉同城化最有基础、最有条件。

近年来，眉山始终坚持以“服务成都、依靠成都、融入成都”为牵引，全力推动成眉产业链、科创同频、服务同享。

Meishan, as the prefecture-level city closest to Chengdu, possesses the best foundation and conditions for urban integration with Chengdu.

In recent years, Meishan has consistently upheld the principles of "serving Chengdu, leveraging Chengdu, and integrating with Chengdu," promoting shared supply chains, technological innovation, and services between the two cities.

规划同城 Synchronized planning

成眉共建国家级天府新区。

Chengdu and Meishan are jointly developing the national Tianfu New Area.

成眉协同编制《成都都市圈发展规划》《成都都市圈国土空间规划》等重要规划，共建成眉“产业协作圈、开放合作圈、宜居生活圈”。

Chengdu and Meishan are collaborating on key plans such as the "Chengdu Metropolitan Area Development Plan" and the "Chengdu Metropolitan Area National Land Space Plan." These efforts aim to establish Meishan's "industrial collaboration circle, open cooperation circle, and livable life circle."

深入推进成德眉资同城化综合试验区建设，抓实天府新区集成授权改革试点。

The Chengdu-Deyang-Mianyang-Zigong Integrated Pilot Zone is being actively advanced, along with reforms for integrated authorization in the Tianfu New Area.

交通同网 Shared transportation network

成眉间综合交通大通道 24 条（含在建），正加快构建“7 高 8 轨 16 快”立体交通格局。

There are 24 comprehensive transportation corridors between Chengdu and Meishan, including those currently under construction. Efforts are underway to accelerate the development of a three-dimensional transportation network featuring "7 highways, 8 railways, and 16 expressways."

成眉间日开动车超 110 趟，开行跨市公交线路 7 条，实现轨道半小时、公路一小时跨市通勤。

More than 110 trains operate daily between Chengdu and Meishan, and 7 inter-city bus routes have been established, enabling inter-city commuting in just half an hour by rail and one hour by road.

市域铁路成眉 S5 线 2026 年建成通车，与成都地铁 19 号线联通，有效缩短成眉距离。

The Chengde and Meishan urban rail S5 line is set to be completed and launched in 2026. This line will be connected to Chengdu Metro Line 19, significantly reducing the travel time between Chengdu and Meishan.

产业同链 Shared supply chains

深化“成都研发+眉山中试”“成都主链+眉山配套”和都市圈 9 条重点产业链跨区域协作，强化与成都高新区等重点区域的联动协同。2024 年，全市纳入同城化建设的 33 个重大项目完成投资 215.13 亿元，与成德资合作配套企业增至 300 余户。

The cross-regional cooperation between Chengdu and Meishan has been deepened, focusing on models such as "Chengdu's R&D + Meishan's Pilot," "Chengdu's Main Supply Chain + Meishan's Supporting Chains," and the development of 9 key industrial chains within the metropolitan area. Efforts are also made to strengthen linkage and coordination with key areas like the Chengdu Hi-tech Zone. In 2024, the city's 33 major projects, part of the metropolitan development initiative, attracted an investment of 215.13 billion yuan. Additionally, the number of suppliers for Chengdu, Deyang, and Ziyang increased to over 300.

深化天府大道科创走廊协同共建机制，建设成都科创生态岛眉山分岛。建立规模 10 亿元的成眉同城化科创股权投资基金，实施成眉科技合作项目 50 余项。

Efforts are made to deepen the collaborative mechanism of the Tianfu Avenue Science and Technology Innovation Corridor, with the goal of establishing the Meishan branch of the Chengdu Science and Technology Innovation Eco-Island. Additionally, a 1 billion yuan Chengdu-Meishan Metropolitan Science and Technology Innovation Equity Fund is established, supporting the implementation of over 50 cooperation projects between Chengdu and Meishan.

协同创建国家级成渝地区电子信息先进制造集群，4 个集群已入选四川省先进制造业集群（第一批）拟培育名单。

A national group of electronic information advanced manufacturing clusters is collaboratively developed in the Chengdu-Chongqing region. Four clusters have been selected for the first batch to be cultivated in Sichuan Province.

牵头组建成眉校地平台合作创新联盟和新能源新材料跨区域产业创新联盟，新实施校（院）企科技合作项目 62 项，其中成果转化项目 31 项。

It takes the lead in establishing the Chengdu-Meishan Gov-Uni Cooperation and Innovation Alliance and the Cross-Regional Industry Innovation Alliance for New Energy and New Materials. Additionally, 62 new Uni-Biz science and technology cooperation projects were implemented, including 31 commercialization projects.

共推成德眉资精品旅游线路 32 条，共促都市圈文旅产业融合发展。

It is promoting 32 premium tour routes across Chengdu, Deyang, Meishan, and Ziyang, advancing the integrated development of the cultural and tourism industries within the metropolitan area.

公共服务共享 Shared public services

成眉间医疗、养老、社保等民生服务事项“互通互认”覆盖范围不断扩大，都市圈超 500 个政务服务事项无差别受理、158 项电子证照互认。

The "mutual recognition" for medical care, elderly care, social security, and other livelihood services between Chengdu and Meishan is continuously expanding. More than 500 government services in the metropolitan area are now delivered universally, and 158 e-certificates are mutually recognized.

2024 年，全市涉及成德眉资跨域通办共计 11872 件。

In 2024, a total of 11,872 cross-regional transactions involving Chengdu, Deyang, and Ziyang was processed in Meishan.

跨区域医联体 115 个，跨市专科联盟 88 个，省内检查检验结果互认项目超 160 项。省内异地就医直接结算定点医疗机构 514 家，定点零售药店 1304 家，联网医药机构覆盖全市所有县区。

This includes 115 cross-regional medical alliances, 88 cross-city specialty alliances, and over 160 mutual recognition projects for imaging and testing results within Sichuan Province. Additionally, for direct settlement of medical fees and expenses within the province, there are 514 designated hospitals, and 1,304 designated retail pharmacies, with networked medical institutions covering all counties and districts in the city.

四川大学华西医院眉山医院、四川大学华西第二医院天府医院、西南医科大学附属天府医院等在眉开诊，有力提升眉山打造成都南部都市圈医学中心能级。

Hospitals such as Meishan Hospital of West China Hospital of Sichuan University, Tianfu Hospital of West China Second Hospital of Sichuan University, and Tianfu Hospital Affiliated to Southwest Medical University have opened clinics in Meishan, significantly enhancing the city's ability as a medical center in the southern metropolitan area of Chengdu.

四川大学眉山校区预计 2025 年建成、首批科研团队入驻，清华附中天府学校高中面向成都“5+2”区域招生。

The Meishan campus of Sichuan University is expected to be completed by 2025, with the first batch of scientific research teams settling in. Additionally, the Tianfu School of Tsinghua Affiliated High School will recruit students from the "5+2" areas of Chengdu.

四川天府新区

Tianfu New Area, Sichuan

2014年10月，四川天府新区正式获批国家级新区，眉山有94平方公里进入核心区，规划697.51平方公里为协调管控区。眉山正围绕“新成都门户、天府卫星城、眉山科创地”定位，高标准建设眉山天府新区。

In October 2014, Sichuan Tianfu New Area was officially approved as a national-level new area. A 94-square-kilometer section of Meishan was included in the core area, with 697.51 square kilometers planned as a coordinated area. Meishan is positioning itself as "the gateway to the new Chengdu, a Tianfu satellite city, and a hub for scientific and technological innovation," and is developing the Meishan Tianfu New Area with high standards.

中国（眉山）跨境电子商务综合实验区

China (Meishan) Cross-Border E-Commerce Comprehensive Pilot Zone

2022年1月，国务院批复同意设立中国（眉山）跨境电子商务综合试验区。眉山综试区以眉山国际铁路港、保税物流中心（B型）（正在申建）、中国（四川）自由贸易试验区协同改革先行区等开放平台联动发展，发挥眉山外贸优势，打造“一核、两区、六协作”跨境电商联动发展格局，形成跨境电子商务完整的产业链和生态链，加快眉山高质量对外开放。

目前，全市拥有3个市级跨境电商产业园、跨境电商企业100余家。2024年全市跨境电商进出口额8.24亿元，同比增长189.1%。

In January 2022, the State Council approved the establishment of the China (Meishan) Cross-border E-commerce Comprehensive Pilot Zone. The zone was developed in coordination with open platforms such as the Meishan International Railway Port, the Bonded Logistics Center (Type B) (currently under construction), and the Collaborative Reform Zone of China (Sichuan) Pilot Free Trade Zone. The initiative aims to leverage Meishan's international trade advantages, creating a cross-border e-commerce development model that features "one core, two zones, six collaborations". This will be a comprehensive cross-border e-commerce industry and ecosystem, accelerating Meishan's high-quality opening to the global market.

Currently, the city is home to three municipal cross-border e-commerce industrial parks and more than 100 cross-border e-commerce companies. In 2024, the city's cross-border e-commerce import and export volume reached 824 million yuan, reflecting a year-on-year increase of 189.1%.

眉山保税物流中心 (B) 型 Meishan Bonded Logistics Center (Type B)

眉山保税物流中心项目位于四川天府新区眉山片区青龙街道，占地150亩，总投资约3.25亿元，建设仓库面积3.5万平方米，项目紧邻成乐高速青龙出入口，基础设施完善，交通区位优势明显。

2022年12月，正式获批3828平方米的进口型、公用型保税仓。

2023年6月，通过海关验收正式投运。截至2025年2月，已入仓配向膜印刷版、集成电路、红酒等产品，累计实现海关监管货值1.39亿元。项目内其它高标仓库已基本实现满仓运营，已经建成“海信成都·眉山仓储中心”。下一步将力争申报保税物流中心（B型），实现出口贸易、流通加工、国际中转等功能。

The Meishan Bonded Logistics Center project is located in Qinglong Street, Meishan District, Tianfu New Area, Sichuan Province, covering 150 mu of land with a total investment of approximately 325 million yuan. The center has a warehouse area of 35,000 square meters and benefits from its proximity to the Qinglong entrance and exit of the Chengdu-Leshan Highway, offering strong transportation and infrastructure advantages.

In December 2022, the project was officially approved as an import and public bonded warehouse spanning 3,828 square meters.

In June 2023, the Meishan Bonded Logistics Center officially started operations after passing customs reviews. By February 2025, various products, including orientation film printing plates, integrated circuits, and red wine, have been stored in the bonded areas, with a total customs supervision value of 139 million yuan. These high-standard warehouses are now fully operational and almost at full capacity. The Hisense Chengdu Meishan Warehousing Center has been established. The next goal is to apply for a Type B bonded logistics center, which would enable Meishan to handle export trade, circulation and processing, international transit, and other functions.

眉山市国家外贸转型升级基地（蔬菜） Meishan National Foreign Trade Transformation and Upgrading Base (Vegetables)

2018年3月，我市成功获批国家外贸转型升级基地（蔬菜）。基地特色产品为：泡菜产品（盐渍菜、调味菜）、竹编产品和蔺草编制品，基地主要位于东坡区、青神县。

目前，眉山是全国最大的泡菜产业聚集区。泡菜原料基地种植面积在30余万亩，2024年泡菜出口1亿元左右，泡菜全年全产业链综合产值超220亿元。青神高标准现代竹林基地总面积达10万亩，竹制品出口千万元左右，竹产业全年实现综合产值超100亿元。

In March 2018, Meishan was successfully approved as a national foreign trade transformation and upgrading base, specifically focused on vegetables. The base's key products include kimchi (salted vegetables and seasoned vegetables), bamboo weaving products, and rush weaving products, with the primary locations being Dongpo District and Qingshen County.

Meishan now has the largest kimchi industry in China. The kimchi raw material base covers more than 300,000 mu of land, and in 2024, the kimchi export value reached 100 million yuan. The comprehensive output value of the kimchi industrial chain exceeded 22 billion yuan annually. Additionally, the Qingshen high-standard modern bamboo forest base spans 100,000 mu, with bamboo products generating about 10 million yuan in export value. The bamboo industry achieved an annual comprehensive output value of more than 10 billion yuan.

中国（四川）自由贸易试验区眉山协同改革先行区 Meishan Collaborative Reform Pilot Zone of China (Sichuan) Pilot Free Trade Zone

中国（四川）自贸试验区眉山协同改革先行区是全省首批 7 个协同改革先行区之一，2019 年 8 月率先揭牌，涵盖天府新区视高片区、天府新区青龙片区和眉山空港经济区，总面积 122.8 平方公里。截至目前，眉山协同改革先行区市民服务中心承接行政权力事项 5259 项，可提供依申请事项 839 项，可办“跨区域通办”事项 1057 项。全面承接省、市、县三级 287 项行政审批事项。创新设立企业“一站式”服务中心，涉及企业项目建设审批服务事项（共 42 项）全部纳入办理，为企业提供全生命周期服务，办结时限压缩 48.5%。并已形成多个创新改革案例。

The Meishan Collaborative Reform Pilot Zone, part of the China (Sichuan) Pilot Free Trade Zone, is one of the first seven collaborative reform pilot zones in Sichuan Province. Unveiled in August 2019, it spans 122.8 square kilometers, covering the Shigao Plot, Qinglong Plot of Tianfu New Area, and the Meishan Airport Economic Zone. Since its establishment, the Citizen Service Center of the Meishan Collaborative Reform Pilot Zone has made significant strides in administrative efficiency. It has offered 5,259 administrative services, with an additional 839 services provided upon application, and handled 1,057 cross-regional items. The center can also handle 287 administrative approval requests at the provincial, municipal, and county levels. The pilot zone has innovatively established a "one-stop" service center for businesses, streamlining the approval process for project construction, which includes a total of 42 items. This service provides comprehensive life-cycle support for enterprises, resulting in a 48.5% reduction in time. Additionally, multiple innovative reform cases have been developed in government efficiency.

海峡两岸产业合作区眉山产业园区 Meishan Industrial Park of Cross-Strait Industrial Cooperation Zone

海峡两岸产业合作区眉山产业园区由国务院台办、国家发展改革委、商务部在天府新区眉山青龙片区基础上，于 2017 年 12 月 27 日正式批准设立，全域纳入四川天府新区总体规划。作为眉山对外开放的重要平台，海峡产业园区是广大台商参与“一带一路”建设的先行先试区、两岸产业合作转型升级的示范区、两岸企业深度合作的重要载体，也是眉山承接东部台资企业产业转移的聚集地，推动两岸经济社会融合发展搭建新平台。园区规划面积 42.8 平方公里，主导产业涵盖新能源新材料、高端装备制造、现代商贸物流等。截至目前，园区工业企业 230 余家，其中规上工业企业 90 余家，世界五百强企业 10 家，产业基础良好。

The Meishan Industrial Park of the Cross-Strait Industrial Cooperation Zone was officially approved on December 27, 2017, by the Taiwan Affairs Office of the State Council, the National Development and Reform Commission, and the Ministry of Commerce. The park is located in the Qinglong Plot of the Meishan Tianfu New Area, which has been integrated into the overall planning of the Sichuan Tianfu New Area. As a key platform for Meishan's international engagement, the Park serves as a pilot for Taiwanese businesses to participate in the Belt and Road initiative. It is also a demonstration zone for the transformation and upgrading of cross-strait industrial cooperation and plays a vital role in fostering deep partnerships between enterprises on both sides of the Taiwan Strait. Additionally, the park is strategic for Meishan to facilitate the industrial relocation of Taiwanese enterprises from eastern China, promoting both economic and social integration between the two sides of the Strait. The park spans a planned area of 42.8 square kilometers, with leading industries such as new energy, new materials, advanced equipment manufacturing, and modern trade and logistics. Now the park hosts over 230 industrial enterprises, including more than 90 above-designated-size companies and 10 Fortune 500 companies, establishing a solid industrial foundation.

产业发展

Industrial Development

眉山坚定以“双碳”战略为引领，推进制造业强市，重点发展新能源新材料、电子信息、装备制造、医药食品，聚力重点产业建圈强链，加快打造成渝地区新能源新材料制造基地。形成以“1+3”为主导的现代工业体系，全市规模以上工业企业每年净增超过100户。培育发展未来产业，聚焦新型储能、低空经济、生物制造等赛道，培育新的增长动能。同时，全力提速服务业发展，推动先进制造业与现代服务业深度融合。

Meishan firmly follows the "dual carbon" strategy, promotes itself as a strong manufacturing city, focuses on the development of new energy and new materials, electronic information, equipment manufacturing, medicine and food, focuses on key industries to build strong supply chains, and accelerates the construction of a new energy and new materials manufacturing base in the Chengdu and Chongqing areas. It has formed a modern "1+3" modern industrial system and the net increase of industrial enterprises above designated size in the city exceeds 100 per year. It is also cultivating future industries, focusing on new types of energy storage, low-altitude economy, biomanufacturing and other tracks for new growth momentums. At the same time, it is speeding up the development of the service sector and promoting the deep integration of advanced manufacturing and modern service industries.

Alternative Energy and New Materials

Build a new energy and new material manufacturing base in the Chengdu and Chongqing areas

产业现状

Industry status

新能源新材料是全市突出发展的首个产值超千亿的产业，现有规上企业 270 余家，2024 年总产值占全市规上工业企业总产值 50% 以上，正在聚力发展晶硅光伏、锂电、高端精细化工三大千亿产业，其中，乐眉宜晶硅光伏产业集群、成德眉遂锂电产业集群、眉山高端精细化工特色产业集群均入选全省首批先进制造业集群，数量居全省第 1。

New energy and new materials have emerged as the city's top industries to exceed an output value of

100 billion yuan. With over 270 enterprises above the designated size, their total output value in 2024 account for more than 50% of the output value of all industrial enterprises above the designated size in the city. The focus is on developing three 100 billion yuan industries: crystalline silicon photovoltaics, lithium batteries, and high-end fine chemicals. Among these, the Leshan-Meishan-Yibin crystalline silicon photovoltaic industry cluster, the Chengdu-Deyang-Meishan-Suining lithium battery industry cluster, and the Meishan high-end fine chemical industry cluster have all been selected as part of the first batch of advanced manufacturing clusters in Sichuan Province, ranking first in the province.

美国雅保
Albemarle, USA

眉山正加快打造西部中试转化基地，持续推进科技创新与产业创新深度融合。眉山新能源新材料融合创新中心作为全市首个产业中试基地，已获评首批工业和信息化部重点培育中试平台，致力于打造西部地区一流的新能源新材料中试基地，主要开展中试验证、成果转化、检验检测和投融资服务，对国内外高校、科研院所、院（博）士团队等优质项目入驻采取“一事一议”政策，促进中试成果快速就地转化，助推新质生产力发展。目前已入驻院士项目 4 个，首个中试项目实现了落地转化。

Meishan is accelerating the development of a pilot test base in western China, fostering the integration of

scientific and technological innovation with industrial advancement. As the city's first industrial pilot base, the Meishan New Energy and New Materials Integrated Innovation Center has been selected as one of the first batch of pilot platforms for key cultivation by the Ministry of Industry and Information Technology. The center is dedicated to establishing a world-class pilot base for new energy and new materials in the western region. It primarily focuses on pilot verification, commercialization, inspection and testing, and investment and financing services. It implements a "one-on-one" approach for high-quality projects from domestic and international universities, research institutes, and academic (doctoral) teams to facilitate the rapid commercialization of successful pilots, promoting the development of new-quality productive forces. Currently, four CAE/CAS Fellow-led projects have been established, and the first pilot project has been successfully implemented.

锂电产业集群成链引领发展

The supply chain conglomeration of the lithium battery industry

先后引进美国雅保、中创新航、杉杉科技、天赐材料等全球锂电领域第一梯队企业，基本覆盖锂电全产业链，负极快充技术、高能量密度低膨胀技术、高电压技术等均处于行业前列，氢氧化锂、电解液产能全省第1，是成都都市圈范围内唯一一个全产业链发展的锂电集群。

The region has successfully attracted top-tier companies in the global lithium battery industry, such as Albemarle, CALB, Sungrow, and Tinci Materials, covering nearly the entire lithium battery industry chain. The technologies in negative electrode fast charging, high energy density with low expansion, and ultra-high voltage are all at the forefront of the industry. The production capacity of lithium hydroxide and electrolytes ranks first in Sichuan Province. It is the only lithium battery cluster in the Chengdu metropolitan area with a fully developed supply chain.

晶硅光伏产业打造全球第一电池生产基地

The top global battery production base built by the crystalline silicon photovoltaic industry

成功吸引通威太阳能、瓊升光伏、四川美科等行业龙头和20余家配套企业，已建成全球单体最大的电池片生产基地、全国单体产能最大的异质结电池生产车间，电池片销售规模全球第1，形成了龙头汇聚、强链抱团的产业集群，正积极打造中国晶硅光伏电池基地。

The region has successfully attracted industry leaders such as Tongwei Solar, Liansheng PV, Sichuan Meike, and more than 20 supporting enterprises. It has established the world's largest single-cell production base and the country's largest single heterojunction battery production workshop. The sales volume of battery cells ranks first globally, creating an industrial cluster with leading companies and strong supply chains. Additionally, efforts are underway to build China's premier crystalline silicon photovoltaic battery base.

高端精细化工产业跻身全省最具潜力区域

The most promising high-end fine chemical industry in Sichuan Province

万华化学、金象化工入选全省制造业“贡嘎培优”计划，成为全省“天然气—天然气原料—天然气化工新材料”全产业链垂直一体化示范企业，已建成全球最大的氰胺系列产品生产基地、全球领先的可降解材料生产基地；晶瑞电子、江化微、和晟达等企业集聚建成西南最大的湿电子化学品生产基地，纳入国家级先进制造业集群—成渝地区电子信息先进制造业集群。

Wanhua Chemical and Jinxiang Chemical have been selected for the province's "Gongga Excellence" plan, becoming demonstration enterprises for the province's full supply chain vertical integration of "natural gas-natural gas raw materials-natural gas chemical new materials." They have established the world's largest cyanamide product production base and a leading global production base for biodegradable materials. Additionally, companies such as Jingrui Electronics, Jianghua Microelectronics, and HSD have come together to build the largest wet electronic chemical production base in southwest China. These companies have been included in the national advanced manufacturing clusters—specifically the Chengdu-Chongqing electronic information advanced manufacturing cluster.

发展方向

Direction of development

锂电方面，将巩固锂电材料制造优势，重点发展高容量新型磷酸盐、高安全三元、硅基等正、负极材料以及快充型动力电池、高比能锂电池和主流电芯制造，积极布局新型电解质材料、复合集流体、高附加值辅材，前瞻培育钠电池、固态电池等。

晶硅光伏方面，将加快“硅片—电池片—组件”等光伏主材一体化发展，面向光伏产业链下游及应用端需求招引银浆、逆变器辅材辅料以及系统集成、生产设备环节产业项目布局，推动乐眉宜光伏产业优势互补、整体跃升。

高端精细化工方面，将重点发展氰胺材料、可降解塑料、氟橡胶等高分子材料，天然绿色表面活性剂、香精香料、酶制剂等生物化工材料，新能源化学品、电子化学品、营养化学品、催化剂等精细化学品。

In the lithium battery sector, the region aims to strengthen its advantages in lithium battery material manufacturing by focusing on the development of high-

capacity new phosphate, high-safety ternary, silicon-based, and other positive and negative electrode materials. It will also prioritize the development of fast-charging lithium batteries, high-energy lithium batteries, and mainstream battery manufacturing. Furthermore, it actively invests in new electrolyte materials, composite current collectors, high-value-added auxiliary materials, exploring emerging technologies like sodium batteries and solid-state batteries.

In the crystalline silicon photovoltaic sector, efforts are made to accelerate the integrated development of key photovoltaic materials such as "silicon wafer-cell-module." The region is attracting manufacturers of silver paste, inverters, and other auxiliary materials, as well as system integration and production equipment to meet the downstream needs of the photovoltaic supply chain. These initiatives aim to enhance the complementary advantages and foster the overall growth of the Leshan-Meishan-Yibin photovoltaic industry.

In the high-end fine chemicals sector, the focus is on the development of polymer materials like cyanamide, degradable plastics, fluororubber, natural green surfactants, flavors and fragrances, and enzyme preparations. Additionally, new energy chemicals, electronic chemicals, nutritional chemicals, catalysts, and other fine chemicals.

电子信息

建设成渝地区电子信息重要配套基地

Electronics & information

A key supporting base of electronic information in Chengdu-Chongqing area

产业现状

Industry status

眉山是四川省规划的“成—绵—眉”新型显示产业带重要组成部分。围绕构建“屏芯端软”，引进建区设市以来第一个总投资超 400 亿元的制造业项目——信利高端显示，并陆续引进 40 余个总投资超 700 亿元的电子信息项目，初步形成以信利集团、天府江东、华赐半导体、博雅新材料、晶瑞电子、江化微电子、环天智慧等龙头企业为引领，以新型显示、集成电路、存储、智能终端、大数据为主导的电子信息产业体系。已建成全国最大中小尺寸新型显示生产基地、西南最大微电子材料聚集区，成为四川存储元器件和存储网络核心区，正打造四川省万亿电子信息产业核心联动区。

Meishan is a key part of the Chengdu-Mianyang-Meishan New Display Industrial Belt planned by Sichuan

Province. With a focus on the development of "screens, chips, terminals, and softwares," the city launched its first major manufacturing project, Truly High-end Display, with a total investment exceeding 40 billion yuan. In addition, over 40 electronic information projects, with a combined investment of more than 70 billion yuan, have been attracted. These initiatives have laid the foundation for an electronic information industry system led by major enterprises such as Truly, Tianfu Jiangdong, Huaci Semiconductor, Boya New Materials, Jingrui Electronics, Jianghua Microelectronics, and Huantian Wisdom. The industrial system is primarily driven by sectors such as new displays, integrated circuits, storage solutions, smart terminals, and big data. As a result, Meishan has become home to the largest small and medium-sized new display production base in China and the largest microelectronic material cluster in Southwest China. It has also become the core area for storage components and storage networks in Sichuan, while working to establish a trillion-yuan electronic information industry core zone within the province.

发展方向

Direction of development

新型显示领域以强链、延链为重点，重点招引靶材、光刻胶、OLED 发光材料、驱动芯片、偏光片、背光源等上游原材料零部件，提升配套成渝的能力；适当引进 Micro/Mini-LED 生产线，提前布局新型显示未来赛道。

智能终端领域聚焦传感器、智能手机（含人工智能消费类产品）、无人机、虚拟现实交互终端三大智能终端领域产品。

集成电路领域发展半导体材料和电子元器件，布局显示芯片、汽车芯片、功率半导体器件等专用芯片及器件，打造具有区域显示度的集成电路生态体系。

软件服务业领域重点招引嵌入式软件、行业应用软件、人工智能软件等。

In the new display field, the focus is on strengthening and extending the supply chain, with

an emphasis on attracting upstream suppliers of raw materials and components such as target materials, photoresists, OLED luminous materials, driver chips, polarizers, and backlight sources, to enhance the region's ability to support manufacturers in Chengdu and Chongqing. Additionally, Micro/Mini-LED production lines are also introduced to proactively position itself for future trends in the new display industry.

In the smart terminal field, the focus is on three key product categories: sensors, smartphones (including AI-powered consumer products), drones, and virtual reality interactive terminals.

In the integrated circuit field, the focus is on developing semiconductor materials and electronic components, with a focus on specialized chips and devices such as display chips, automotive chips, and power semiconductor devices, to create an integrated circuit ecosystem with regional display prominence.

In the software services, the focus is on attracting embedded software, industry-specific application software, artificial intelligence software, and other related technologies.

装备制造

建设全国“专精特新”装备制造基地

Equipment manufacturing

Build a national "specialized, special and new" equipment manufacturing base

产业现状

Industry status

全市现有装备制造规上企业 150 余家。拥有成眉绿色铸造园区、西南表面处理循环经济产业园等装备制造专业优势园区，形成“铸造—锻造—表面处理—机械加工—整机”制造体系，打造“德恩云”工业互联网平台，赋能企业数字化转型、智能化生产。成功引进格力、富生电器、零重力、新筑智能、蜀道钢构等优质项目，本土培育壮大了中车眉山、德恩精工、丹甫环境、德鑫航空等知名企业。已建成全球最大的传动件生产基地、全国最大的木工机床生产基地、全国最大的小规格压缩机生产基地、全国重要的铁路货车生产基地。

The city hosts more than 150 equipment manufacturers above the designated scale. It boasts

specialized industrial parks, including the Chengdu-Meishan Green Casting Park and the Southwest China Surface Treatment Circular Economy Industrial Park, which together form a comprehensive manufacturing system encompassing casting, forging, surface treatment, machining and complete machine. The city has also launched the "De'en Cloud" industrial Internet platform, supporting the digital transformation and smart manufacturing of businesses. It has successfully attracted high-quality projects from prominent companies such as Gree, Fusheng Electric, Zero Gravity, Xinzhu Intelligence, and Shudao Steel Structure. In addition, it has fostered the growth of well-established companies like CRRC Meishan, De'en Precision, Danfu Environment, and Dexin Aviation. The city is home to the world's largest transmission parts production base, the country's largest woodworking machine tool production base, the largest small-size compressor production base, and a key railway freight car production base.

发展方向

Direction of development

以四川省打造万亿级装备制造产业的发展契机，把握装备制造产业高端化、智能化、绿色化的发展趋势，推动机械成套装备、数控机床及工业机器人等传统产业转型升级，推动新能源装备、检验检测设备等新兴领域培育壮大，推动航空航天、低空经济等未来产业抢滩布局，全面夯实装备制造产业发展底座。

Capitalizing on the opportunity presented by Sichuan Province's goal of building a trillion-yuan

equipment manufacturing industry, the focus is on aligning with the development trends of high-end, intelligent, and green equipment manufacturing. Efforts are being made to drive the transformation and upgrading of traditional industries, such as complete machinery sets, CNC machine tools, and industrial robots. At the same time, emerging sectors like new energy equipment and inspection and testing technologies are being nurtured for growth. Furthermore, future industries, including aerospace and the low-altitude economy, are being actively promoted to strengthen and solidify the overall foundation for the growth of the equipment manufacturing sector.

产业现状

Industry status

全市现有生物医药规上企业 30 余家，形成了以亿帆医药、国为制药、科伦药业、海思科药业、青山利康药业为龙头的化学制药产业集群，以森科制药、彩虹制药、瓦屋山药业为龙头的现代中药产业集群，以三鑫医疗、四川双陆为龙头的医药器械产业集群，以上药华西为主的药品第三方仓储物流服务平台。眉山经开新区（西部药谷）是四川省首批药品上市许可持有人制度试点园区，是成都周边最具承载条件的生物医药产业园区。川芎、泽泻占全国市场 70%，雅连被列入中国国家地理标志产品，建成了全国第二所、西部地区第一所以“药科”命名的全日制普通高等学校。

全市基本形成以泡菜、畜产品、调味品、竹产业、饮料茶、乳制品等为主导，较为完善的食品加工工业体系。2024 年，“味在眉山”销售收入突破 1200 亿元。培育国家级重点龙头企业 6 家，创成中国特色农副产品之乡 13 个、中国驰名商标 7 个。建成全国最大的泡菜产业集群，泡菜产业创造“七个全国第一”，年销售收入占全国三分之一、全省二分之一。建成全国最大的晚熟柑橘产业集群，晚熟柑橘产业集群建设荣获全国首批 50 个优势特色产业项目末期绩效考评第 3 佳绩。培育和引进了千禾味业、么麻子、漫味龙厨、味聚特、吉香居、李记酱菜、海霸王、思念食品、蒙牛、新希望、今麦郎、五谷源、德康通内斯、泰国正大、王家渡等知名企业。

The city has over 30 above-scale biopharmaceutical companies, creating a dynamic industrial cluster. This includes a chemical pharma cluster led by Yifan Pharmaceutical, Guowei Pharmaceutical, Kelun

Pharmaceutical, Haisike Pharmaceutical, and Qingshan Likang Pharmaceutical; a modern Chinese medicine cluster led by Senke Pharmaceutical, Rainbow Pharmaceutical, and Wawushan Pharmaceutical; a medical device cluster led by Sanxin Medical and Sichuan Shuanglu; and a third-party pharmaceutical warehousing and logistics service platform, primarily based on SPH Huaxia Pharmaceutical. Meishan Economic Development Zone (Western Medicine Valley) is among the first pilot parks for the drug marketing authorization holder system in Sichuan Province and stands as the most advanced biopharmaceutical industrial park in the Chengdu area. Chuanxiong and Alisma (traditional Chinese herbal medicines) account for 70% of the national market, while Yalian has been recognized as a national geographical indication product in China. Additionally, the city has established the second full-time general college focused on pharmaceutical studies in the country, which is also the first one in western China.

The city has established a relatively complete food processing industry system, primarily focused on kimchi, livestock products, condiments, bamboo products, beverages, tea, dairy products, and more. In 2024, the sales revenue of "Taste in Meishan" exceeded 120 billion yuan. The city has nurtured six national leading enterprises, developed 13 towns specializing in Chinese characteristic agricultural and sideline products, and established seven well-known Chinese trademarks. The city is home to the largest kimchi industry cluster in China, with the kimchi sector having achieved "seven national firsts." The annual sales revenue from the kimchi industry accounts for one-third of the national market and half of the province's total. Additionally, the city boasts the largest late-ripening citrus industry cluster in China. This citrus industry cluster earned the third place in the final performance evaluation of the first batch of 50 advantageous and characteristic industrial cluster projects nationwide. Notable enterprises that have been cultivated or introduced to the city include Qianhe Flavoring & Food, Yao Ma Zi, Manwei Longchu, Weijute, Jixiangju, Liji Pickles, Hai Ba Wang, Si Nian Food, Mengniu, New Hope, Jinmailang, Wugu Yuan, Dekang Tonnes, Chia Tai Group, and Wangjiadu.

发展方向

Direction of development

依托眉山经开新区（西部药谷），聚力招引培育龙头企业，突出发展“药械”两端，重点发展化学药、现代中药、生物制品等产业；依托药效评价中心等研发平台，推动化学药“仿创”结合、中药新品开发、生物制品技术突破、医疗器械高端化。

构建以预制菜为主导的食品产业集群，围绕“即烹、即配、即热、即食”四大细分领域，招引龙头企业，培育“种养殖基地+中央厨房+冷链物流+餐饮门店”模式，重点发展速冻食品、药食同源、预调理食品等高附加值产品。

壮大泡菜、调味品、饮料茶等产业规模，配套发展食品包装、食品器械、食品检测、冷链物流等产业，形成集种养、加工、检测、包装、销售、物流于一体的产业集群。

Leveraging the Meishan Economic Development Zone (Western Medicine Valley), Meishan focuses on attracting and nurturing leading enterprises, emphasizing the development of both ends of the "drugs and

devices" spectrum. Key priorities will include advancing the chemical drug, modern Chinese medicine, and biological product industries. By utilizing research and development platforms such as the efficacy evaluation center, the city aims to promote the integration of "imitation and innovation" in chemical drugs, develop new Chinese medicine products, achieve technological breakthroughs in biological products, and advance high-end medical devices.

The city is developing a food industry cluster centered on pre-prepared dishes, focusing on four key sub-segments: "ready-to-cook," "ready-to-match," "ready-to-heat," and "ready-to-eat." The goal is to attract leading enterprises and cultivate a model that integrates "planting and breeding base + central kitchen + cold chain logistics + catering stores." The focus will be on developing high-value-added products, including quick-frozen foods, medicinal foods, and pre-prepared foods.

The city is expanding the scale of industries such as kimchi, condiments, and beverage tea, while fostering supporting sectors such as food packaging, food equipment, food testing, and cold chain logistics. This will create an integrated industrial cluster that spans planting and breeding, processing, testing, packaging, sales, and logistics.

The focus is on advancing the development of new energy storage manufacturing and photovoltaic

been successfully introduced to the region. The area is home to more than 50 related enterprises across key sectors such as lithium battery materials, lithium batteries, sodium batteries, flow batteries, energy storage systems, and power stations. It is building the largest energy storage material manufacturing base in the southwest China and the provincial pilot zone for the integrated development of the PV storage industry.

storage and charging system applications, including large-capacity energy storage lithium battery cells, key energy storage components, and energy storage system integration. The city is actively expanding into emerging sectors such as solid-state batteries, sodium-ion batteries, and long-term energy storage. It aims to attract leading players in energy storage lithium battery iteration materials, solid-state electrolytes, composite current collectors, and high-performance sodium electric materials. The goal is to promote the integrated development of the energy storage and photovoltaic industries.

低空经济

Low-altitude economy

产业现状

Industry status

眉山地势平坦开阔，气候温和，为低空稳定飞行提供了良好的基础条件，拥有川协 3 号约 500 平方公里低空空域，处于川南、云南、贵州等西南地区进入成都的关口位置，共布局彭山、洪雅、丹棱 3 个通用机场（彭山江口通用机场已建成），被纳入全省低空经济、商业航天产业链重要承载区以及四川省首批低空空域协同管理试点。四川省航空运动管理中心落户眉山。拥有中国西部第一所通用航空高校——眉山天府通航学院，开设无人机飞手、飞行员培训、飞行器数字化制造、低空巡检安防等多个相关专业，低空人才保障有力。

Meishan features a flat and open terrain with a mild climate, offering ideal conditions for stable low-altitude flight. The city is situated within approximately

发展方向

Direction of development

瞄准工业无人机、军用无人机、小型固定翼飞机以及电动垂直起降飞行器（eVTOL）等领域，攻坚引进细分龙头或隐形冠军企业。紧盯低空动力电池、高能量密度电池材料、机身轻量化材料、航机电产品、无人机反制、低空运营服务等领域引进关键配套企业。结合眉山实际，积极培育发展“低空+运动”“低空+文旅”“低空+植保”“低空+物流”等低空应用多元场景，推进卫星应用技术与低空技术协同融合发展，奋力打造成都市圈低空经济先导区。

Focusing on industrial drones, military drones, small fixed-wing aircraft, and electric vertical

500 square kilometers of low-altitude airspace in Sichuan Association No. 3 and serves as a gateway to Chengdu from southwestern China, including southern Sichuan, Yunnan, and Guizhou. Meishan is home to three general airports: Pengshan, Hongya, and Danleng, with Pengshan Jiangkou General Airport already built. These airports are key components of the province's low-altitude economy and serve as important hubs in the commercial aerospace industry. Additionally, they are part of the first batch of low-altitude airspace collaborative management pilots in Sichuan Province. The Sichuan Provincial Aviation Sports Management Center is located in Meishan, and the city is home to Meishan Tianfu General Aviation College, the first general aviation college in western China. The college offers a variety of related programs, including drone pilot training, pilot training, digital aircraft manufacturing, and low-altitude inspection and security, ensuring a strong talent pool to support the low-altitude aviation sector.

take-off and landing aircraft (eVTOL), we aim to attract leaders or hidden champions in these specialized sectors. The priority will be to introduce key supporting enterprises in areas such as low-altitude power batteries, high-energy-density battery materials, lightweight fuselage materials, avionics and electromechanical products, drone countermeasures, and low-altitude operation services. In response to its unique characteristics, Meishan will actively cultivate and develop low-altitude application scenarios, including "low-altitude + sports," "low-altitude + cultural tourism," "low-altitude + plant protection," and "low-altitude + logistics." Additionally, we will promote the coordinated and integrated development of satellite application technology and low-altitude technology. The ultimate goal is to establish Meishan as a low-altitude economic pilot zone within the Chengdu metropolitan area.

● 生物制造 Biomanufacturing

产业现状 Industry status

眉山现有生物制造规模以上企业 28 户，其中传统发酵食品企业 25 户，集中在泡菜和调味品领域，拥有万华化学、金象赛瑞、施金格、龙蟒福生一批高端生物制造企业。万华化学在眉山落户了绿色合成开发中心，营养健康产品走在全国前列；金象赛瑞在农业生物制造方面深耕多年，具有许多拳头产品。

Meishan currently boasts 28 biomanufacturing enterprises above designated size, including 25 traditional fermented food companies that focus on kimchi and condiments. The city is also home to several high-end biomanufacturing enterprises, such as Wanhua Chemical, Golden Elephant Sincerity, Shi Jinge, and Lomon Biotech. Wanhua Chemical has established its Green Synthesis Development Center in Meishan, with its nutritional and health products ranking top in China. Golden Elephant Sincerity, a veteran in agricultural biomanufacturing, is also known for its many flagship products.

发展方向 Direction of development

将靶向引进生物精细化学品及材料、生物医药、生物农业等高端优质企业和中试转化项目，帮助搭建一流院所与头部企业的合作平台，逐步形成“生产+应用”融合的完善产业链条，打造省内一流的生物制造产业先导区。

Moving forward, the city aims to attract high-

end and high-quality enterprises, as well as pilot projects in areas such as bio-fine chemicals and materials, biomedicine, and bio-agriculture. Efforts are made to establish cooperation platforms between top-tier research institutes and leading enterprises, fostering the development of a robust industrial chain that integrates "production + application." The goal is to position Meishan as a premier biomanufacturing industry pilot zone within the province.

● 物流服务持续优化

Optimum logistics services

眉山国际铁路港年开行国际班列达 220 余列，覆盖 7 条国际通道，连接境外 33 个节点城市，位居全省第 2。建成覆盖县乡村三级的物流中心、村级驿站，全市快递业务量稳居全省第 2，农产品冷链物流设施 2355 个、静态库容量达 23 万吨。成功培育眉山港投多式联运有限公司等龙头企业，海尔、当当网、苏宁等知名企业相继入驻。

Meishan International Railway Port operates more than 220 international trains annually, covering

pilot zone and is home to five national-level e-commerce comprehensive demonstration counties in rural areas. The city's "Dongpo cuisine" is well-known both domestically and internationally. Additionally, Meishan has been shortlisted for the fourth batch of national pilot projects aimed at creating a "15-minute convenient life circle" in the city.

7 international routes and connecting 33 overseas node cities, ranking second in the province. A logistics center and a network of village-level post stations covering county, township, and village levels have been established. The city's express delivery service volume ranks second in the province, with 2,355 cold chain logistics facilities for agricultural products and a static warehouse capacity of 230,000 tons. Meishan has successfully cultivated leading enterprises such as Meishan Port Investment Multimodal Transport Co., Ltd., and attracted well-known companies like Haier, Dangdang.com, and Suning, all of which have established a presence in the city.

发展方向

Direction of development

加快引进一批服务业区域功能性总部经济项目，逐步放大总部经济集聚效应。高标准发展生产性服务业，围绕“1+3”主导产业链上下游，招引科技研发、智慧物流、金融、大数据等一批嵌入式生产性服务业项目，完善制造业产业链条。高品质发展生活性服务业，依托瓦屋山、江口沉银、城市新中心等新型多元消费场景，招引首发经济、文旅经济、低空经济等高能级、高品质项目，提升城市品质。

Efforts are made to accelerate the introduction of regional functional headquarters economy projects within the service industry, gradually enhancing the

agglomeration effect of the headquarters economy. The focus is on developing high-standard productive services, with an emphasis on the upstream and downstream sectors of the "1+3" leading industrial chain. Embedded productive service industry projects, such as technology research and development, smart logistics, finance, and big data, are gathered to strengthen and improve the manufacturing industry chain. Additionally, the development of high-quality life services are prioritized, leveraging new and diverse consumption scenes such as Mount Wawu, Jiangkou Silver Wreck, and the New City Center. High-level, high-quality projects in sectors like the first-launch economy, cultural tourism economy, and low-altitude economy are attracted to enhance the city's overall quality and appeal.

眉山中心城区距离双流国际机场、天府国际机场均在 1 小时车程以内。乘动车到双流国际机场用时 20 分钟。

眉山市共布局彭山、洪雅、丹棱 3 个通用机场，其中，已建成彭山江口通用机场，洪雅通用机场正加快前期工作。

The central urban area of Meishan is within an hour's drive from both Shuangliu International Airport and Tianfu International Airport. It takes just 20 minutes to reach Shuangliu International Airport by train.

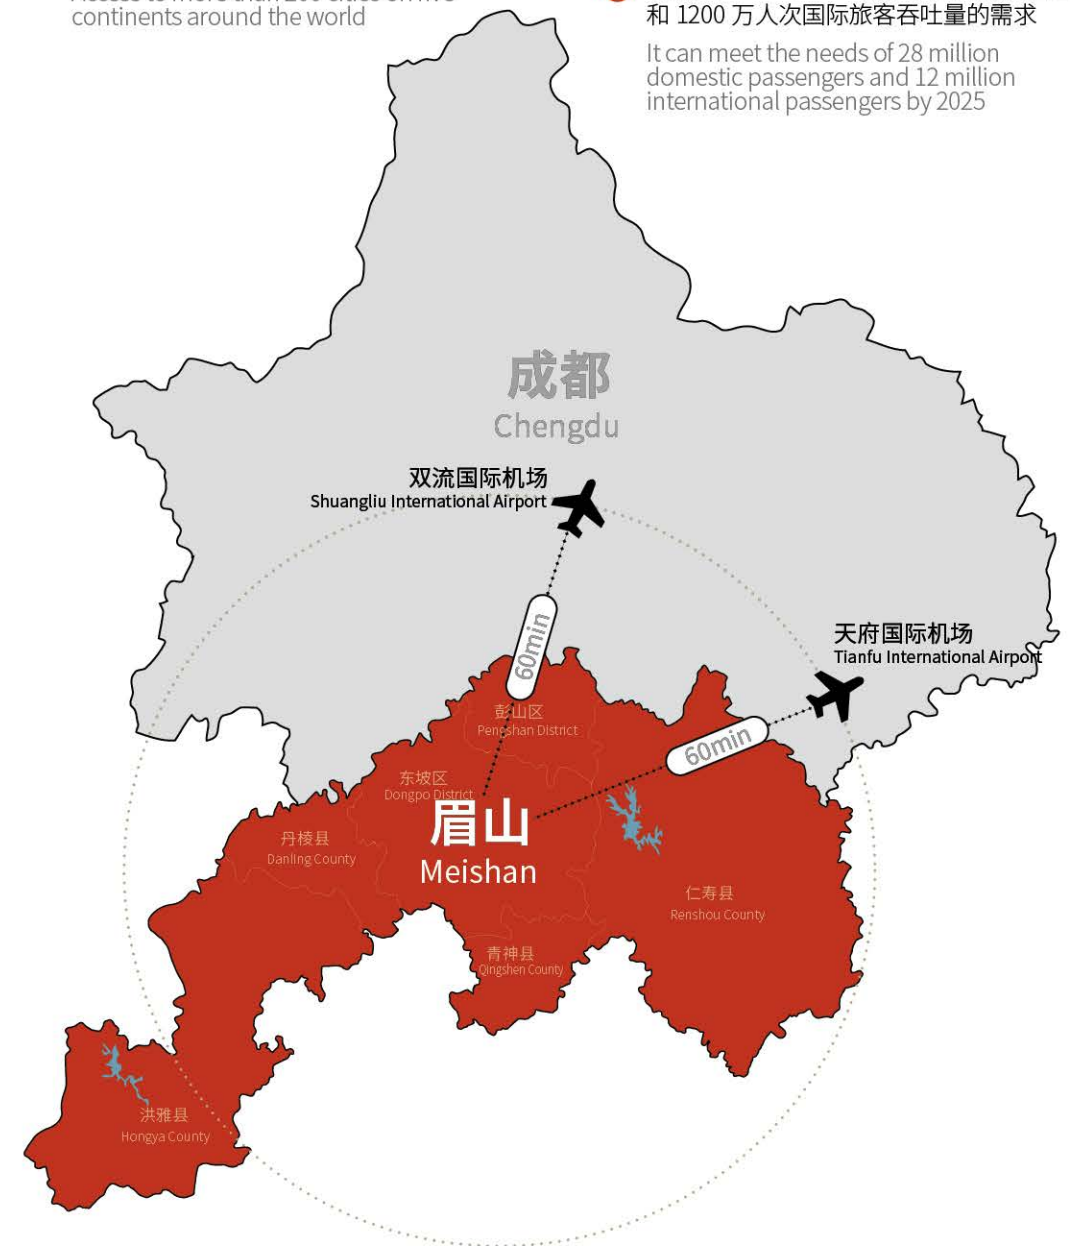

Meishan City is served by three general airports: Pengshan, Hongya, and Danling. Among these, Pengshan Jiangkou General Airport has already been built, while the preliminary work for Hongya General Airport is progressing rapidly.

双流国际机场 Shuangliu International Airport

- 全球最繁忙机场之一
One of the busiest airports in the world
- 旅客吞吐量连续两年位列全国第二
It ranked second in China in passenger throughput for the past two years
- 通达全球五大洲 200 余个城市
Access to more than 200 cities on five continents around the world

天府国际机场 Tianfu International Airport

- 丝绸之路经济带中等级最高的航空港之一
One of the highest-level airports in the Silk Road Economic Belt
- 成都国际航空枢纽的主枢纽
The main player of Chengdu International Aviation Hub
- 可满足 2025 年 2800 万人次国内旅客吞吐量和 1200 万人次国际旅客吞吐量的需求
It can meet the needs of 28 million domestic passengers and 12 million international passengers by 2025

铁路运输

Railway transportation

眉山国际铁路港

Meishan International Railway Port

眉山国际铁路港位于国家综合立体交通网“1极3轴3廊2通道”交汇处，串接东中西部的长江物流通道、南北方向的西部陆海新通道和西南方向的川藏大通道，是成渝地区扩大开放的关键节点，具备公、铁、水、空全通道能力。截至2024年，已开行北到白俄罗斯、德国、波兰，南到老挝、越南、缅甸等地的国际班列363列，联通欧洲、东南亚等境外节点33个。2022年12月，陆海新通道眉山集散中心正式揭牌运营。

Meishan International Railway Port, strategically located at the intersection of the "1 pole, 3 axes, 3 corridors, and 2 channels" of the national comprehensive three-dimensional transportation network, connects key logistics channels across the region. These include the Yangtze River logistics channel in the east, middle, and west, the West China New Land-Sea Channel in the north and south, and the Sichuan-Tibet Grand Channel in the southwest. This location positions Meishan as a vital node for the expansion of opening-up in the Chengdu-Chongqing region, providing full-channel capabilities for road, rail, water, and air transportation. As of 2024, the rail port has launched 363 international trains, connecting to cities of Belarus, Germany, and Poland in the north, and Laos, Vietnam, Myanmar, and other countries in the south, linking 33 overseas nodes in Europe and Southeast Asia. In December 2022, the Meishan Distribution Center of the New Land-Sea Channel officially opened and began operations.

轨道交通 Rail transit

成眉动车日开行 100+ 趟，平均发车间隔 9 分钟，20 分钟通达成都双流国际机场，从眉山坐动车可直达广州、杭州、长沙、西安、贵阳、昆明、南宁等全国主要城市。

现有成昆铁路（含复线）、成贵高铁、连汪燕铁路，规划成都外环铁路、渝自雅铁路，正快速推进川藏铁路、市域（郊）铁路成都至眉山线。

市域铁路 S5 线将于 2026 年建成通车，与成都地铁 19 号线联通，有效缩短成眉距离，眉山即将成为除成都之外在全省拥有地铁的两个城市之一。

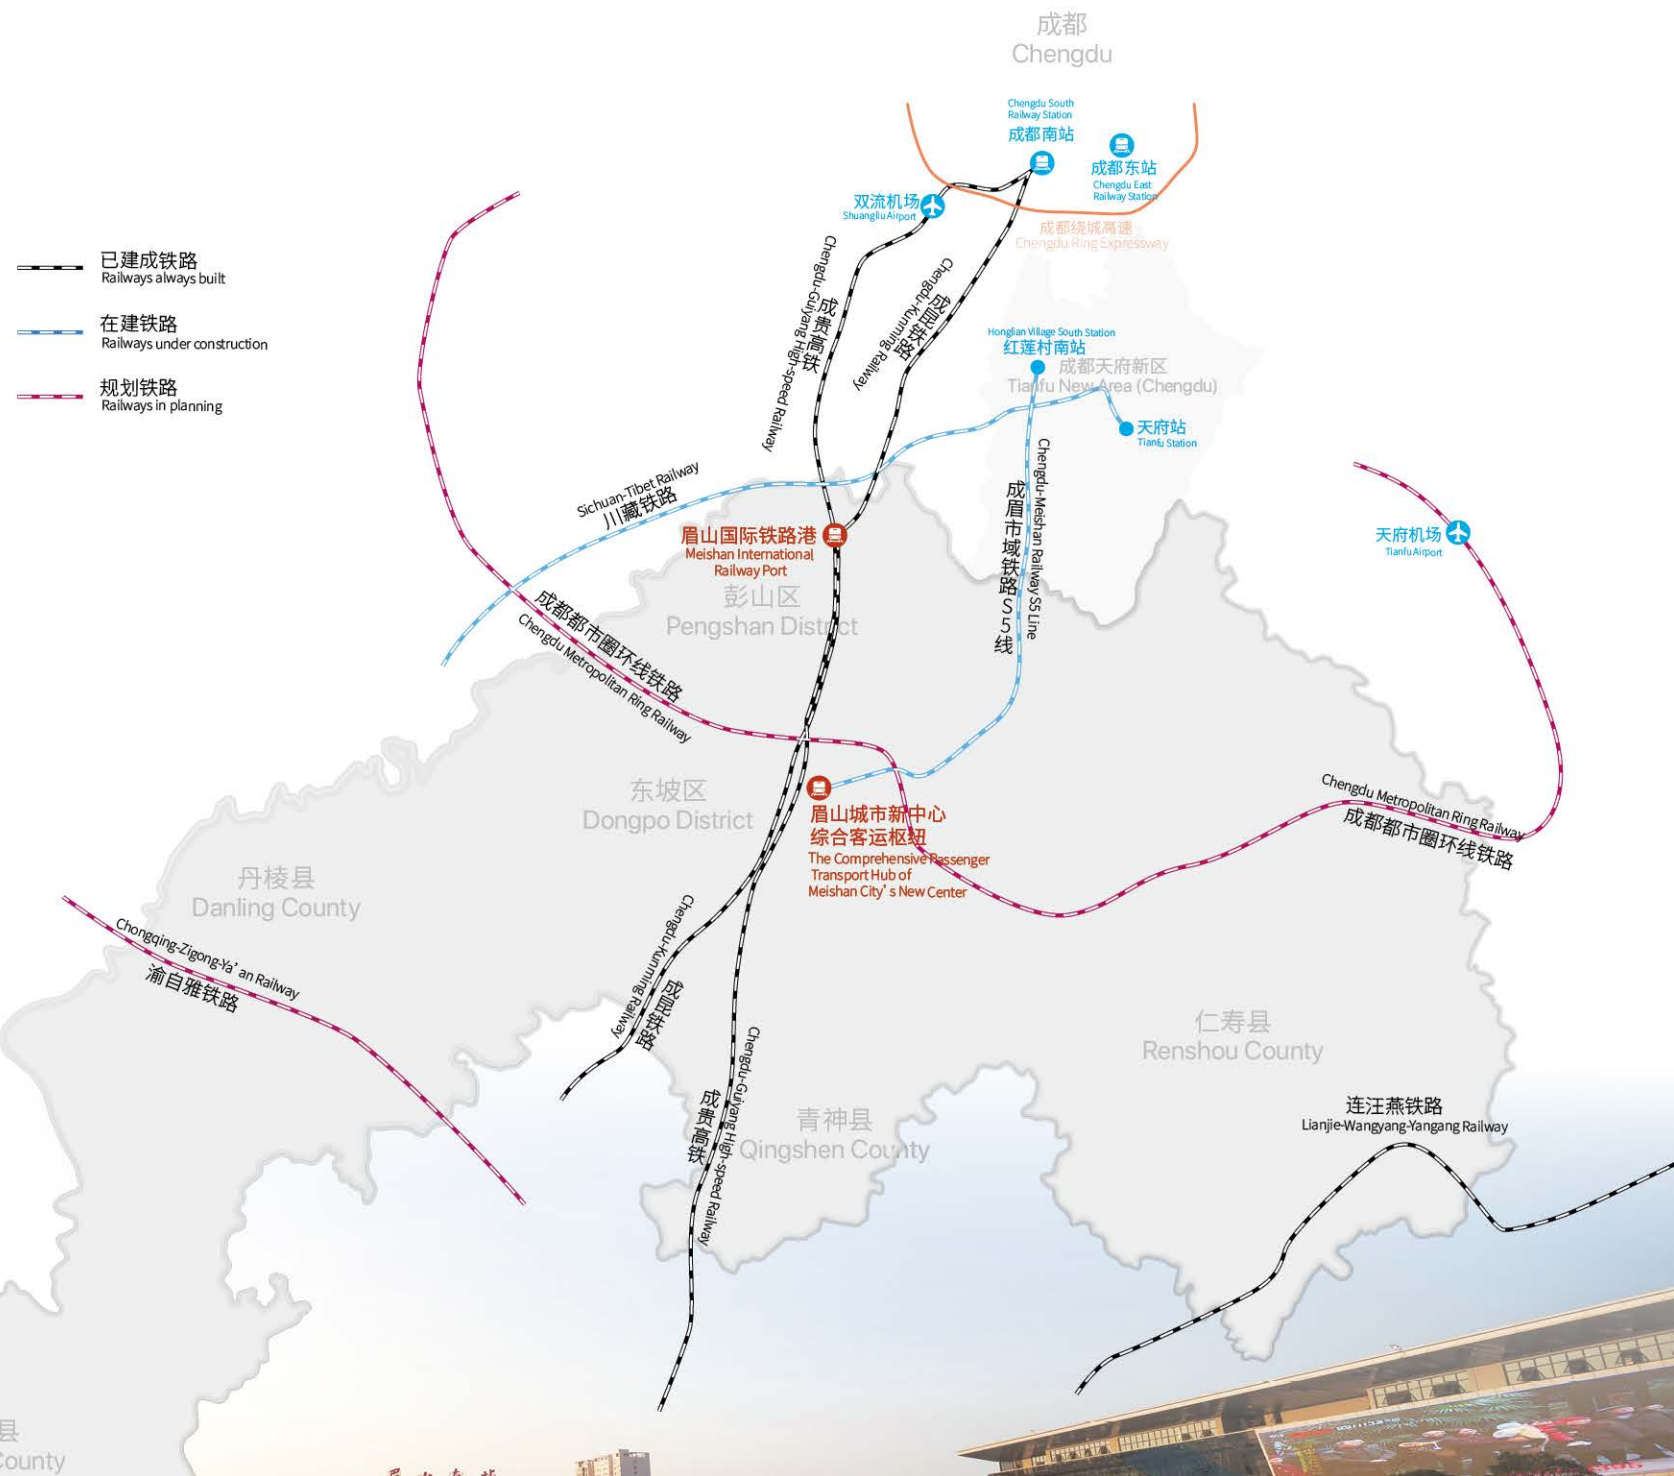

Chengdu and Meishan high-speed trains operate more than 100 times a day, with an average departure interval of just 9 minutes. The journey to Chengdu Shuangliu International Airport takes only 20 minutes. From Meishan, passengers can take direct high-speed trains to major cities across the country, including Guangzhou, Hangzhou, Changsha, Xi'an, Guiyang, Kunming, and Nanning.

The Chengdu-Kunming Railway (including the double-track lines), Chengdu-Guiyang High-speed Railway, and Lianjie-Wangyang-Yangang Railway are in operation. The planned projects include the Chengdu Outer Ring Railway and the Chongqing-Zigong-Ya'an Railway. The Chengdu to Meishan section of the Sichuan-Tibet Railway and suburban railways are being rapidly advanced.

The urban railway S5 line is scheduled to be completed and open to traffic in 2026, linking with Chengdu Metro Line 19. This will significantly shorten the travel time between Chengdu and Meishan. Once operational, Meishan will become one of the two cities in the province, alongside Chengdu, to have a subway system.

公路运输

Road transportation

加快构建“四横八纵”高速路网、“五横九纵”快速路网，无缝衔接成都。天府大道眉山段、天府大道仁寿段、成乐高速扩容改造、成都经济区环线高速（第三绕城高速）、滨江大道、剑南岷东大道、工业大道、环天府新区快速通道、梓州大道南延线仁寿段、丹蒲快速路等已建成通车；成眉（郊）市域铁路、天眉乐高速等正加快推进。

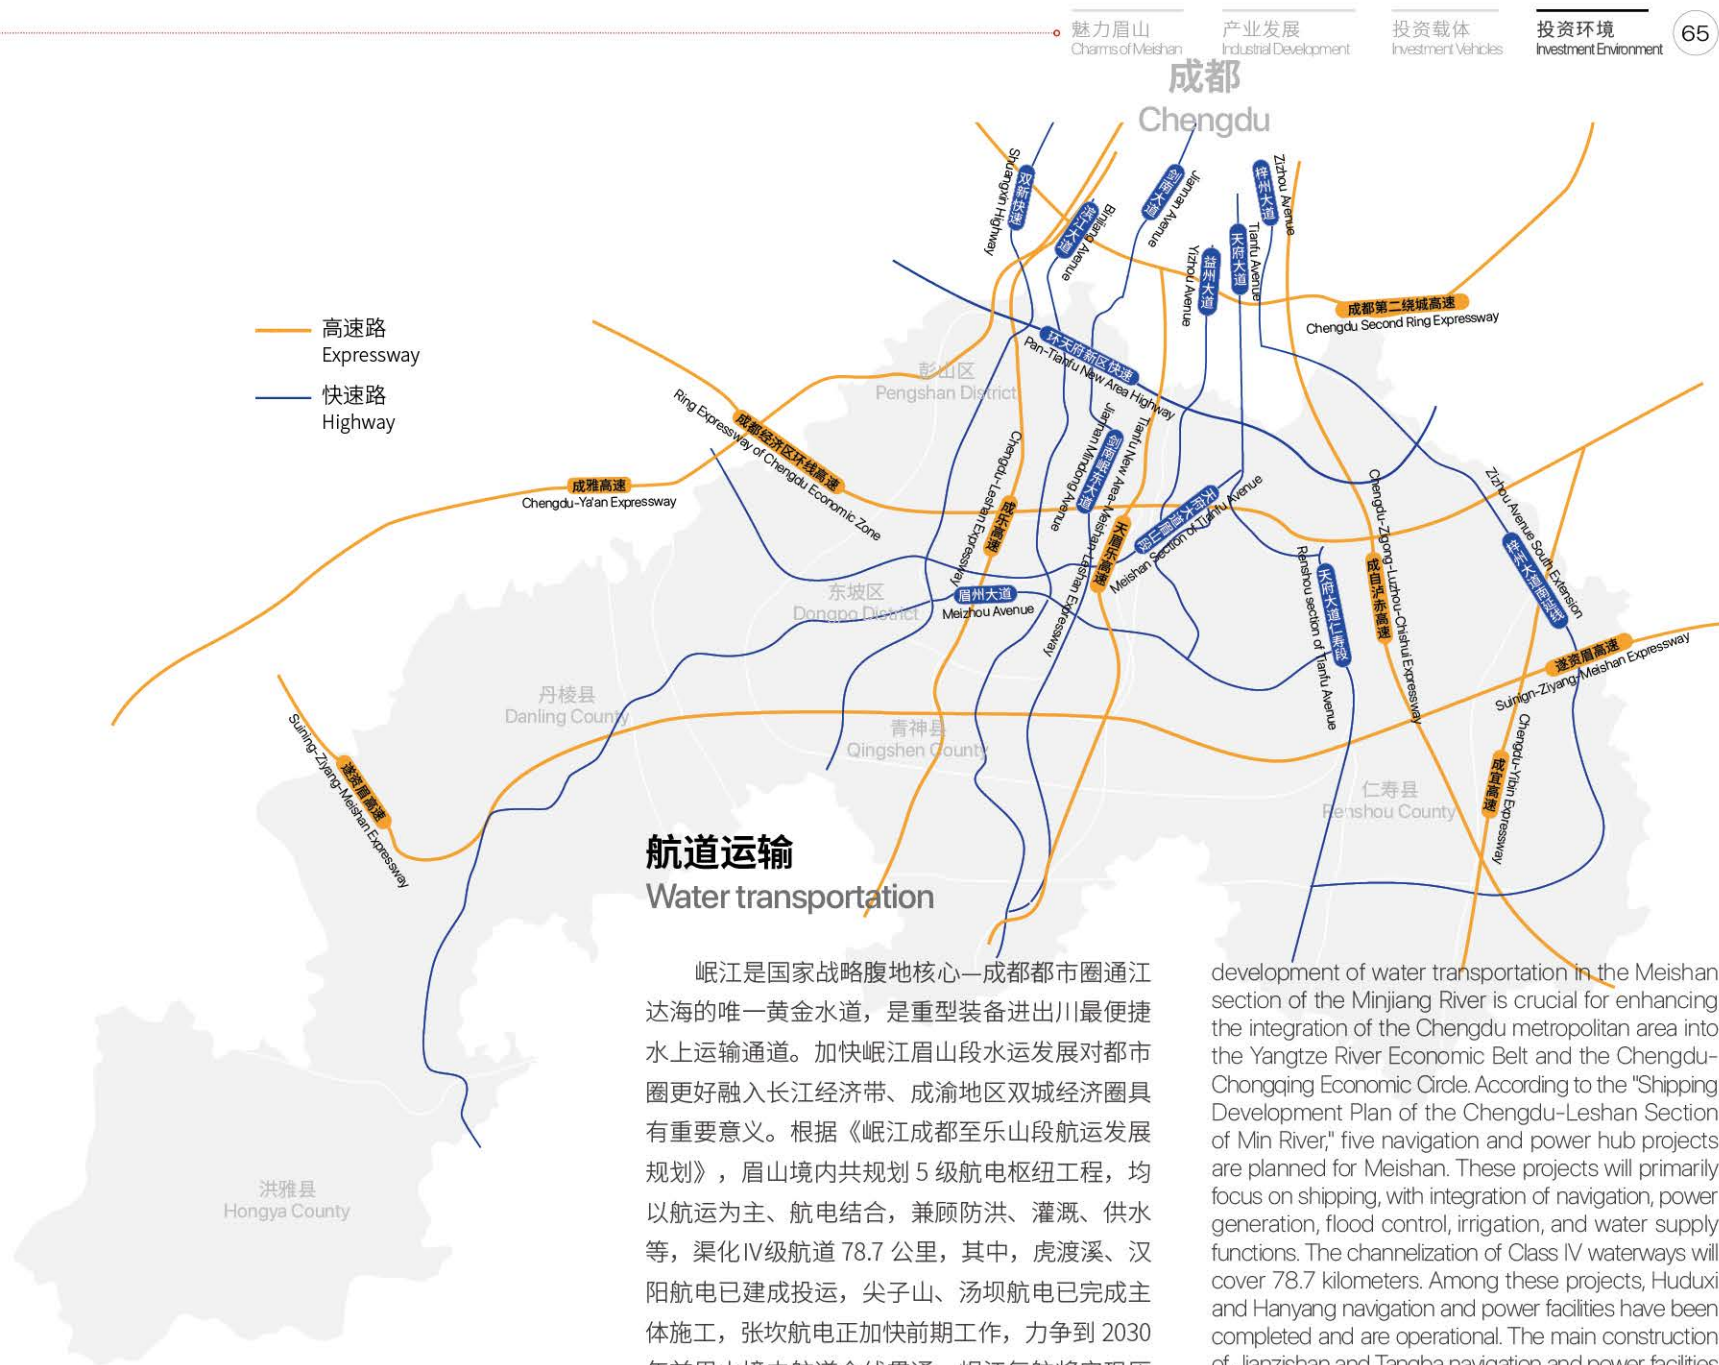

成眉实现“公交一卡通、一码通”，已开通成都-眉山跨市公交线路8条，日均客流量达1.3万人，可实现直接接入成都地铁站，实现无缝换乘。

The construction of the "four horizontal and eight vertical" highway network and the "five horizontal and nine vertical" expressway network is being accelerated to create seamless connectivity with Chengdu. The Meishan section of Tianfu Avenue, the Renshou section of Tianfu Avenue, the expansion and reconstruction of the Chengdu-Leshan Highway, the Chengdu Economic Zone Ring Highway (Third Ring Highway), Binjiang Avenue, Jiannan Mindong Avenue, Industrial Avenue, the Pan-Tianfu New Area Expressway, the Renshou section of the southern extension of Zizhou Avenue, and the Danpu Expressway have all been completed and opened to traffic. Meanwhile, the Chengdu and Meishan (suburban) Urban Rail and the Tianfu-Meishan-Leshan Highway are progressing rapidly.

Chengdu and Meishan have implemented a "one card, one code" system for public transportation. Eight inter-city bus routes connecting Chengdu and Meishan are now in operation, with an average daily passenger volume of 13,000 people. These routes provide direct access to Chengdu subway stations, ensuring seamless transfers.

岷江汤坝航电枢纽
Tangba Navigation and Power Generation Hub on the Min River

航道运输

Water transportation

岷江是国家战略腹地核心—成都都市圈通江达海的唯一黄金水道，是重型装备进出川最便捷水上运输通道。加快岷江眉山段水运发展对都市圈更好融入长江经济带、成渝地区双城经济圈具有重要意义。根据《岷江成都至乐山段航运发展规划》，眉山境内共规划5级航电枢纽工程，均以航运为主、航电结合，兼顾防洪、灌溉、供水等，渠化IV级航道78.7公里，其中，虎渡溪、汉阳航电已建成投运，尖子山、汤坝航电已完成主体施工，张坎航电正加快前期工作，力争到2030年前眉山境内航道全线贯通，岷江复航将实现历史性突破。“十五五”期间，以打造成都平原“通江达海第一港”，快速推进眉山港建设，发展“铁公水”多式联运。

The Min River is a vital national strategic waterway, serving as the only golden waterway that connects the Chengdu metropolitan area to rivers and seas. It is also the most convenient route for the transport of heavy equipment into and out of Sichuan. Accelerating the

development of water transportation in the Meishan section of the Minjiang River is crucial for enhancing the integration of the Chengdu metropolitan area into the Yangtze River Economic Belt and the Chengdu-Chongqing Economic Circle. According to the "Shipping Development Plan of the Chengdu-Leshan Section of Min River," five navigation and power hub projects are planned for Meishan. These projects will primarily focus on shipping, with integration of navigation, power generation, flood control, irrigation, and water supply functions. The channelization of Class IV waterways will cover 78.7 kilometers. Among these projects, Huduxi and Hanyang navigation and power facilities have been completed and are operational. The main construction of Jianzishan and Tangba navigation and power facilities has been completed, while the preliminary work for Zhangkan navigation and power is accelerating. By 2030, efforts will focus on connecting all waterways in Meishan, marking a historic breakthrough in the resumption of navigation on the Min River. During the 15th Five-Year Plan period, the construction of Meishan Port has been rapidly advanced to develop multimodal transport systems integrating rail, road, and water. This will establish the Chengdu Plain as the "first port connecting rivers and seas."

人才资源 Human resources

眉山连续5年入选全国最具人才吸引力百强城市。高校数量全省前三，现有大学12所，在校学生15万余人；高职院校7所，在校学生近11万人；天府新能源新材料产业学院与本地龙头企业联合举办订单班10余个，在校生3000余人。

四川大学眉山校区是四川大学第四校区，将于2025年全部封顶，届时将联合世界一流大学、聚焦国家急需发展的技术领域，深度对接区域产业发展需求，打造成为支撑区域经济社会高质量发展的产学研协同创新示范区，助力眉山经济社会高质量发展。

近年来，与清华大学、香港大学、电子科技大学、重庆大学、北京外国语大学、深圳大学等知名高校达成校地合作，全市教育资源不断优化，科技创新能力持续提升。

同时，眉山紧邻成都，可与成都共享四川大学、电子科技大学、西南财经大学、西南交通大学等56所高等院校每年15万大学毕业生的人才资源。

Meishan has been recognized as one of the top 100 cities in China for talent attraction for five consecutive years. The city ranks among the top three in the province in terms of the number of colleges and universities, with 12

universities hosting over 150,000 students. Additionally, there are 7 vocational colleges with nearly 110,000 students. Meishan is also home to the Tianfu New Energy and New Materials Industry College, which, in collaboration with local leading enterprises, offers more than 10 specialized programs with over 3,000 students enrolled.

The Meishan Campus of Sichuan University, the university's fourth campus, is set to be fully completed in 2025. Upon its completion, it will align with world-class universities and focus on technical fields critical to the country's development. The campus will closely integrate with the region's industrial needs, aiming to become a demonstration zone for collaborative innovation in industry, academia, and research. This initiative will support regional economic and social development and contribute to Meishan's high-quality economic and social growth.

In recent years, Meishan has established collaborative partnerships with prestigious universities such as Tsinghua University, the University of Hong Kong, the University of Electronic Science and Technology of China, Chongqing University, Beijing Foreign Studies University, Shenzhen University, and others. These collaborations have fostered Gov-Uni partnerships, optimizing the city's educational resources and enhancing its capacity for technological innovation.

Additionally, Meishan's proximity to Chengdu allows it to share the talent pool of 150,000 university graduates annually from 56 renowned institutions, including Sichuan University, the University of Electronic Science and Technology of China, Southwestern University of Finance and Economics, and Southwest Jiaotong University.

投资服务 Investment services

眉山营商环境全省领先，先后荣获“中国政务服务突出贡献奖”、“全国政务服务创新先进单位”、“行政效能建设”先进、深化“放管服”改革优化营商环境工作先进等荣誉称号。

全力打造“眉事无忧”政务服务品牌，率先开展“红色代办”“一网通办”“小时清单”等服务，全面实施“眉山速度”“眉山服务”“眉山成本”“眉山诚信”营商环境示范工程，企业开办实现“4小时1环节0成本”。杉杉锂电项目从开工到投产仅7个月，中创新航项目用地报批速度刷新全省纪录。

Meishan has established itself as a leader in business environment within the province, earning recognition for its outstanding improvement of government services. The city has been awarded the titles "Outstanding Contribution to Chinese Government Services," "National Advanced Unit for Government Service Innovation," "Advanced Unit for Administrative Efficiency," and "A Model of 'Delegation, Regulation, and Service' Reforms."

Meishan is committed to further improving its business climate by launching the "Meishan Worry-free" government service brand. This initiative includes pioneering services such as the "Red Agency," "One-stop Service," and "Hourly List." The city is fully implementing key business environment demonstration projects, including "Meishan Speed," "Meishan Service," "Meishan Cost," and "Meishan Integrity," with the goal of achieving a "4 hours, 1 stop, 0 cost" model for business registration. Notably, it took just seven months from the start of construction to the commissioning of the Shanshan Lithium Battery Project, and the approval speed for the CALB Project's land application set a new provincial record.

外资政策

Foreign investment policy

《外商投资准入特别管理措施（负面清单）》（2024年版）《鼓励外商投资产业目录》（2022年版）。

主要包括

- 对于鼓励类外商投资项目，在投资总额内进口自用设备以及按照合同随前述设备进口的技术和配套件、备件，除《外商投资项目不予免税的进口商品目录》和《进口不予免税的重大技术装备和产品目录》所列商品外，免征关税；
- 对于符合条件的西部地区和海南省鼓励类产业的外商投资企业，减按 15% 征收企业所得税；
- 对于集约用地的鼓励类外商投资工业项目优先供应土地，在确定土地出让底价时可按不低于所在地土地等别相对应全国工业用地出让最低价标准的 70% 执行。

外商投资信息报告有关事项

- 外国投资者直接在中国境内投资设立公司、合伙企业的，外国（地区）企业在中国境内从事生产经营活动的，外国（地区）企业在中国境内设立从事生产经营活动的常驻代表机构等，应按照《外商投资信息报告办法》的规定，通过企业登记系统在线提交初始报告、变更报告，通过国家企业信用信息公示系统在线提交年度报告。注销报告相关信息由市场监管总局向商务部共享，外国投资者或者外商投资企业无需另行报送。外商投资举办的投资性公司、创业投资企业和以投资为主要业务的合伙企业境内投资设立企业的，应当参照前款规定报送投资信息。
- 境内非外商投资企业变更为外商投资企业，应于办理变更登记时在线提交初始报告。

- 外商投资企业实际控制人变更、进口设备减免税信息变更、住所未变更但所在特殊经济区域变更以及外商投资的股份有限公司除发起人之外的股东基本信息变更等无需到市场监管部门办理变更登记的事项，应于变更事项发生后 20 个工作日内通过企业登记系统提交变更报告。外国投资者或者外商投资企业提交变更报告时，只需填报变更事项，其他未发生变更的事项无需重复填报。
- 外商投资企业境内投资（含多层次投资）的企业初始报告、变更报告、注销报告和年度报告，由市场监管总局向商务部共享，企业无需另行报送。
- 初始、变更报告存在未报、错报、漏报的，外国投资者或者外商投资企业应通过企业登记系统进行补报或更正；6 月 30 日前，年度报告存在错报、漏报的，外国投资者或者外商投资企业应通过国家企业信用信息公示系统进行补报或更正；7 月 1 日起，年度报告存在错报、漏报的，外国投资者或者外商投资企业应向商务主管部门申请，通过外商投资信息报告管理系统（网址：...）进行补报或更正；7 月 1 日起，外国投资者或者外商投资企业未按时提交年度报告的，应根据商务主管部门、市场监管部门的相关规定办理相关手续。
- 2020 年 1 月 1 日起设立或发生变更的外商投资企业，无需办理外商投资企业设立或变更备案，只需根据《外商投资信息报告办法》和本公告的要求报告投资信息。
- 各地商务主管部门将在企业登记系统和国家企业信用信息公示系统上公布联系人和联系方式，为外国投资者和外商投资企业填报提供具体指导。

"Special Management Measures for Foreign Investment Access" (a.k.a. "The Negative List" 2024 Edition) "Catalogue of Industries Encouraged for Foreign Investment" (2022 Edition).

Main Points

- For encouraged foreign-invested projects, the import of self-use equipment within the total investment, as well as technology and supporting parts and spare parts imported with the aforementioned equipment in accordance with the contract, except for the commodities listed in the Catalog of Technical Equipment and Products, shall enjoy tariff exemption;
- For eligible foreign-invested enterprises in encouraged industries in West China and Hainan Province, corporate tax will be levied at a reduced rate of 15%;
- For the encouraged foreign-invested industrial projects with intensive use of land, priority supply of land is given. When determining the floor price for the transferred land, it can be set at no less than 70% of the minimum corresponding national price for industrial land transfer.

- Report of the change of the actual controller of the foreign-invested company, the change of the tax reduction and exemption information for imported equipment, the change of the special economic region but not the change of the domicile, and the change of the basic information of shareholders other than the initiator of the foreign-invested company limited should be submitted through the enterprise registration system within 20 working days after the change occurs, with no need to go to the market supervision department. When a foreign investor or foreign-invested enterprise submits a change report, only the changed items need to be filled in, and other items that have not been changed need not be repeated.
- The initial report, change report, cancellation report and annual report of foreign-invested enterprises which invest in Chinese enterprises (including multi-level investment) shall be shared between the State Administration for Market Regulation and the Ministry of Commerce, and foreign-invested enterprises do not need to submit separate reports.

- If there are unreported, wrongly reported, or under-reported items in the initial or change report, the foreign investor or foreign-invested enterprise shall make a supplementary report or correction through the enterprise registration system. Before June 30, if the annual report contains wrongly reported or under-reported, the foreign investor or foreign-invested enterprises shall make supplementary reports or corrections through the National Enterprise Credit Information Publicity System. Starting from July 1, if there are misstatements or omissions in the annual report, foreign investors or foreign-invested enterprises shall apply to the competent commerce department and make supplementary reports or corrections through the foreign investment information report management system (website:) will make supplementary reports or corrections. Starting from July 1st, if foreign investors or foreign-invested enterprises fail to submit their annual reports on time, they shall have to follow the relevant regulations required by the competent commercial and market supervision authorities.

- Foreign-invested enterprises established or modified on or after January 1, 2020, are no longer required to file for their establishment or changes. Instead, they are only required to report investment information per the "Foreign Investment Information Reporting Measures" and the guidelines provided in this Announcement.

- Local commercial authorities will publish the contact person and contact information on the enterprise registration system and the national enterprise credit information publicity system. This will provide specific guidance for foreign investors and foreign-invested enterprises in filling out the reports.

Matters related to foreign investment reporting

- Foreign investors who directly invest in the establishment of companies and partnerships in China, and foreign (regional) enterprises which engage in production and business activities in China, and/or set up permanent representative offices in China to engage in production and business activities should act in accordance with the *Foreign Investment Information Reporting Measures*. The initial and revised report shall be submitted online through the enterprise registration system, and the annual report shall be submitted online through the national enterprise credit information publicity system. Information related to the cancellation report shall be shared by the State Administration for Market Regulation with the Ministry of Commerce, and foreign investors or foreign-invested enterprises do not need to submit it separately. Foreign-funded investment companies, venture capital enterprises, and partnerships with investment as the main business which invest in China shall submit investment information in accordance with the provisions of the preceding article.
- When a domestic non-foreign-invested enterprise changes to a foreign-invested enterprise, an initial report should be submitted online when the change registration is processed.
